Dear DOT STIP Program:

As you develop your plans for the needs of Alaskan roads, please give highest priority to the Soldotna to Sterling section of the Sterling Highway. Data from the troopers would show a great deal of fatal accidents on the road during the past 5 years. Two days before Xmas, 2 people were killed by the Jim Dahler intersection with the Sterling Highway. The grooves in the road when icy are killing people. The entire road, in sections needs to be widened to four lanes and the grooves removed. Please give my request consideration.

Dave Carey, Soldotna Mayor
